

To Whom it may concern:

I would like to provide my commentary in regards to the pending complaint regarding XM radio. I believe that you and I both agree that Markets tend to work best when unregulated. XM radio provides a service that I pay for, a purchase of my choice. Just as turning the radio dial is a choice for listening preferences so is my right to choose XM radio over any other variation as my primary choice. The logic that we need to protect business from competition is frankly equal to me trying to walk on water. Please let XM radio and others compete freely in the marketplace.

Sincerely,

Louis Herman
